Planes over Essex Centre

Nine planes in wedge formation, groups of three, faded into the sunset. Mrs. Picobac waving a sea-towel, watched them disappear. "Imagine" said she, returning into the kitchen: "They'll be there by now."

"When my father drove the four-horse stage," said Mr. Picobac, "it took him one whole day to get to Windsor and one whole day to come back."

He put a match to his pipe and puffed in thought. "And I tell you," continued he, "there's just as much difference between the first Canadian Burley tobacco we grew here in 1895 and the improved Burley we grow here in Essex County to-day, 2

"Don't take my word for it," he added. "Put some of this Picobac in your pipe and try it."

"I'll take your word for it," replied Mrs. Picobac:

"It DOES taste good in a pipe!"

Reconsecration Week SEPTEMBER 10th to 17th, 1941

During which time the people of Canada are urged to reconsecrate themselves to greater service to their Country, to decorate their homes and communities with flags and bunting and to come to a full realisation of the significance of the accompanying pledge, which is to be read at public meetings and placed in the homes of all the people.

RECONSECRATION PLEDGE

At this time of peril for my Country, in this fight against the evil powers which threaten to enguli the world, conscious of my duty towards Canada and towards my fellow man, I sciennity pledge before Almighty God that I shall do all that lies within my power and deem no sacrifice too great to bring about victory of our arms, that right may triumph. that justice may prevail and that a righteous peace may reign throughout the worlds to this and I reconsecrate myself, with faith, with courage and with the knowledge that, though the path be hard and the day be dark our effort can not fail.

For Greater Service To Our Country

DURING RECONSECRATION WEEK, a time set aside for making personal pledges to render greater service to our country, Zeller's Limited is conscious that a business unit (no less than the individual Canadian) must come to full realization of the Importance of united effort.

IN OUR BUSINESS SPHERE, what can we do towards fulfilling our duty as Individuals? At a time when the Nation needs materials and labour for the National Emergency, can we not work "for greater service to our country", by helping to conserve needed resources?

WE, AS RETAILERS, are distributors of great quantitles of goods to great numbers of people,

AGRICULTURE MARCHES WITH OUR ARMED FORCES

Behind the lines where men and women are risking life to defend home and country, men and women are toiling to supply the materials of warships, planes, tanks, guns. These manufacturers—management and workers alike—are thus fighting shoulder to shoulder with our armed forces.

But what about the farmers? They are doing a work of equal impor-tance. They too are marching to battle, by toiling early and late to persuade nature to increase the food supply on which the issues of the fight so greatly depend. The farmer marches side by side with the soldier and his armourer.

Farmers who are doing their bit to help Canada's all-out war effort may find it necessary to borrow money at the Bank. You should not besine to discuss your requirements with our nearest branch manager. Your business will be regarded as strictly confidential.

ATTENTION Income Tax Payers

Your first installment on 1941 Income Tax is due this month - if you wish to pay by the Government Monthly Payment Plan

By the Government Easy Payment Plan your Income Tax is taken by the Government case; rayment, ram your moome a lax is taken care of before it becomes a burden. It gives you the privilege of paying in twelve monthly installments—without interest of penalty, provided you make your payments regularly.

HERE IS HOW TO GET THE BENEFIT OF THE MONTHLY PAYMENT PRIVILEGE

Simply divide the total of your 1940 Income Tax by twelve. This is the amount that must be paid to the Receiver General this month -September, 1941. Then pay the same amount before the end of each month for the balance of 1941. Before the end of January, 1942, you will have estimated the tax jon your 1941 income at the 1941 rate, from which you will deduct the four payments you will have already made. The remainder of your tax may then be paid in eight equal monthly payments starting January.

Resisting the many demands on the people of Canada as a result of the war, the Government presents the above plan as the most reasonable and convenient method of meeting your income tax obligations. Ask your local Income Tax Office for Installment Income Tax Remittance Form.
